

Low Cost Workstation Solution

Undisclosed Client
Industry: Telecommunications
Location: Bishop Ranch, San Ramon CA

Challenge:

CSG was asked to provide pricing and furniture plans for a multi-national telecommunications company opening a satellite office in San Ramon California.

The client required a fast and inexpensive solution to provide a functional and professional environment for 51 employees.

With our initial meeting in late July, the client needed to be up and running by September 1.

Solution:

Taking into account the client's time frame and budget goals, CSG selected a regional manufacturer who was able to deliver a combination of quality product, short manufacturing times, and low cost to the project.

The end result was a full suite of matching furniture, custom designed for the client, delivered on time and within the defined budget.

Products Used:

Workstations: Systems 2

Desking: Systems 2

Seating: ErgoOffice

CSG recognizes that marquee brand office furniture isn't right for every application.

To insure that we have products that can fit ALL of our client's requirements, we have developed deep relationships with quality office furniture manufacturers who produce products across the design and price spectrum.

Regardless of whether your project requires the highest level of design, or a simple, fast, and functional answer, we have the right solution.
